Summary

I am a Software Engineering student at Woldia University with a strong foundation in full-stack development, data structures, and algorithmic problem-solving. Passionate about building scalable web applications and optimizing system performance, I continuously strive to learn new technologies and collaborate effectively in Agile environments. I completed my elementary education at Erfa Elementary School, attended Shumsheha High School for secondary education, and completed preparatory studies at Lalibela Preparatory School.

Projects

- Plan Monitoring And Evaluation
Technology used:
Frontend: react.js with JavaScript
Backend :node.js
Database: MongoDB
- Blog Management System
Frontend: react.js with JavaScript
Backend :Spring Boot 3.x
Database: PostgreSQL
- Student clearance system
Frontend: react.js with TypeScript
Backend :node.js
Database: Postgres

Education

- B.Sc. in Software Engineering, Woldia University, 2026
- Expected Graduation: July 2026
- Relevant Coursework: Data Structures and Algorithms, Database Systems, Web Development, Operating Systems, Software Architecture.

Skills

- Languages: Python, Java, JavaScript (ES6+),Type Script, C++
- Frameworks/Libraries: React.js, Node.js, Express, Springboot, Bootstrap, Nextjs
- Databases: PostgreSQL, MongoDB
- Tools and DevOps: Git/GitHub, Docker, Postman
- Core Concepts: RESTful APIs, Agile/Scrum, CI/CD, OOP, System Design

Exprience

- Software Engineering Intern ,Ministry Of Innovation And Technology,2025
- Collaborated with a team of 4 to refactor a legacy codebase, improving maintainability.

Language

- Amharic(native),
- English(professional)

Hobbies

- Reading,
- Problem-solving,
- Sport
